

November News

October was a busy month in our classroom. We had fun using our scientist eyes and making predictions about the apples. Students have been making great strides with their communication in play and learning how to problem solve. We also learned some wonderful French fall songs this month that we encourage you to ask your child about at home.

Virtue of the month

The month of November we will spend time talking about peace as this is our school virtue of the month. We will continue to discuss compassion and how we can show friendship and inclusion in our classroom.

Reminders

*As the cold weather approaches we stress the importance of labeling all items that come to school. We encourage you to send items that students can put on independently.
*If you are not on **freshgrade** please send in your email ASAP as we post photos often and will send last minute reminders through the app.

Learning focus

Our focus in math for the month will be on numeracy, working with dominos and making tally's. In literacy we will continue to identify letters and sounds as well as printing letters. Our home read will commence mid November. The new dramatic play centre will encourage the use of French vocab in colours, numbers, manners and basic sentences such as placing an order at a restaurant.
